FEATURED RESOURCES

Keep resources linked in a central location like a webpage or coaches group platform (like a Facebook group). You can use this line for a quick note if needed, but I recommend using the space to link to that central location.

TRiO is a group of eight Federal outreach and student services programs. Their purpose is to provide services and support for students who are low-income, first-generation, and individuals with disabilities from middle school to post baccalaureate programs. To find information on Kentucky TRiO programs and events click below.

NEW & returning coaches, consider looking at the web-based College & Career Readiness (CCR) Resource Guide to become familiar with some helpful resources to use with your students and to build your knowledge on CCR topics!
