SPOTLIGHT
Alternative Spring Break

We are pleased to share some exciting news about Alternative Service Break grant funds! In addition to our regular funding for service experiences, we have been offered additional funding from Serve Kentucky to help support disaster relief efforts in Eastern Kentucky (flood) and Western Kentucky (tornado). Both locations will have ongoing opportunities for service through the next weeks and months. If you or someone on your campus is interested in bringing a group to serve in one of these locations, we may be able to support those efforts. In addition, Serve Kentucky may be able to help your group connect with an organization/community in need if you’d like.

These funds require a match from your institution/community partner to cover at least 50% of the experience’s costs and may include in-kind gifts. In-kind contributions may include, but are not limited to, the use of an institutional vehicle, donated time by chaperones and non-student participants, community partner time, meals/housing donated by community partner, donations (monetary or supplies) collected by students, etc. Please note that funding is available as reimbursement only. For more information and to apply click below.

IN OTHER NEWS

Mindy Wilson will start conducting site visits to touch base with you this fall. Please keep an eye out for an email in the coming weeks from her to schedule a short time to visit with you and your supervisor.
